REPORT OF INDEPENDENT AUDITORS

To the Board of Supervisors
Harmony Community Development District
Osceola County, Florida

Report on Audit of the Financial Statements

Opinion

We have audited the financial statements of the governmental activities and each major fund of Harmony Community Development District (the "District"), as of and for the year ended September 30, 2024, and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Harmony Community Development District as of September 30, 2024, and the respective changes in financial position and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS), and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

To the Board of Supervisors
Harmony Community Development District

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for one year beyond the financial statement date, including currently known information that may raise substantial doubt thereafter.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore, is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining on a test basis, evidence regarding the amounts, and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the *Governmental Accounting Standards Board* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated March 28, 2025 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations and contracts.

The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Harmony Community Development District's internal control over financial reporting and compliance.

**Harmony Community Development District
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2024**

Management's discussion and analysis of Harmony Community Development District's (the "District") financial performance provides an objective and easily readable analysis of the District's financial activities. The analysis provides summary financial information for the District and should be read in conjunction with the District's financial statements.

OVERVIEW OF THE FINANCIAL STATEMENTS

The District's basic financial statements comprise three components; 1) *Government-wide financial statements*, 2) *Fund financial statements*, and 3) *Notes to financial statements*. The *Government-wide financial statements* present an overall picture of the District's financial position and results of operations. The *Fund financial statements* present financial information for the District's major funds. The *Notes to financial statements* provide additional information concerning the District's finances.

The *Government-wide financial statements* are the **statement of net position** and the **statement of activities**. These statements use accounting methods similar to those used by private-sector companies. Emphasis is placed on the net position of governmental activities and the change in net position. Governmental activities are primarily supported by special assessments.

The **statement of net position** presents information on all assets and liabilities of the District, with the difference between assets and liabilities reported as net position. Net position is reported in three categories; 1) net investment in capital assets, 2) restricted, and 3) unrestricted. Assets, liabilities, and net position are reported for all Governmental activities.

The **statement of activities** presents information on all revenues and expenses of the District and the change in net position. Expenses are reported by major function and program revenues relating to those functions are reported, providing the net cost of all functions provided by the District. To assist in understanding the District's operations, expenses have been reported as governmental activities. Governmental activities financed by the District include general government, physical environment, culture/recreation and debt service.

Fund financial statements present financial information for governmental funds. These statements provide financial information for the major funds of the District. Governmental fund financial statements provide information on the current assets and liabilities of the funds, changes in current financial resources (revenues and expenditures), and current available resources.

**Harmony Community Development District
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2024**

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Fund financial statements include a **balance sheet** and a **statement of revenues, expenditures and changes in fund balances** for all governmental funds. A **statement of revenues, expenditures, and changes in fund balances – budget and actual** is provided for the District's General Fund. *Fund financial statements* provide more detailed information about the District's activities. Individual funds are established by the District to track revenues that are restricted to certain uses or to comply with legal requirements.

The *government-wide financial statements* and the *fund financial statements* provide different pictures of the District. The *government-wide financial statements* provide an overall picture of the District's financial standing. These statements are comparable to private-sector companies and give a good understanding of the District's overall financial health and how the District paid for the various activities, or functions, provided by the District. All assets of the District, including capital assets are reported in the **statement of net position**. All liabilities, including principal outstanding on bonds are included. The **statement of activities** includes depreciation on all long-lived assets of the District, but transactions between the different functions of the District have been eliminated in order to avoid "doubling up" the revenues and expenses. The *fund financial statements* provide a picture of the major funds of the District. In the case of governmental activities, outlays for long lived assets are reported as expenditures and long-term liabilities, such as capital improvement revenue bonds, are not included in the fund financial statements. To provide a link from the *fund financial statements* to the *government-wide financial statements*, a reconciliation is provided from the *fund financial statements* to the *government-wide financial statements*.

Notes to financial statements provide additional detail concerning the financial activities and financial balances of the District. Additional information about the accounting practices of the District, investments of the District, capital assets and long-term debt are some of the items included in the *notes to financial statements*.

Financial Highlights

The following are the highlights of financial activity for the year ended September 30, 2024.

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlay as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation. This is the amount of depreciation in the current period.	(171,955)
---	-----------

Governmental funds report bond discounts and premiums as other financing sources and uses. However, in the Statement of Activities, bond premiums and discounts are amortized over the life of the bonds. This is the amount that amortization of bond premiums, \$17,429, exceeded the amortization of bond discounts, \$(9,917), in the current period.	7,512
---	-------

Repayment of note and bond principal is an expenditure in the governmental fund, but the repayment reduces long-term liabilities in the Statement of Net Position.	1,670,473
--	-----------

The deferred outflow of resources for refunding of debt is recognized as a component of interest expense in the Statement of Net Position, but not at the fund level. This is the amount of current year interest.	(31,658)
--	----------

In the Statement of Net Position, interest is accrued on outstanding bonds; whereas at the fund level, interest expenditures are reported when due. This is the net amount between the prior year and the current year accruals.	<div style="border-top: 1px solid black; border-bottom: 3px double black;">29,456</div>

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Harmony Community Development District (the "District") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District's more significant accounting policies are described below.

1. Reporting Entity

The District was established on February 28, 2000 by the Board of County Commissioners of Osceola County, Florida pursuant to Ordinance 00-05 created by the provisions of the Uniform Community Development District Act of 1980, Chapter 190, Florida Statutes, as amended (the "Act"), as a Community Development District. The District was established for the purposes of managing with a related tool of financing the acquisition, construction, maintenance and operation of the infrastructure necessary for community development within its jurisdiction. The District is authorized to issue bonds for the purpose, among others, of financing, funding, planning, establishing, acquiring, constructing district roads, landscaping, and other basic infrastructure projects within or without the boundaries of the Harmony Community Development District. The District is governed by a five-member Board of Supervisors, who are elected for terms of four years. The District operates within the criteria established by Chapter 190, Florida Statutes.

The reporting entity for the District includes all functions of government in which the District's Board exercises oversight responsibility. Oversight responsibility includes, but is not limited to, financial interdependency, selection of governing authority, designation of management, significant ability to influence operations and accountability for fiscal matters. As required by GAAP, these financial statements present the Harmony Community Development District (the primary government) as a stand-alone government.

Based upon the application of the above-mentioned criteria as set forth in principles established by the Governmental Accounting Standards Board, the District has identified no component units.

2. Measurement Focus and Basis of Accounting

The basic financial statements of the District are composed of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to financial statements

a. Government-wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Government-wide financial statements report all non-fiduciary information about the reporting government as a whole. These statements include the governmental activities of the primary government. The effect of interfund activity has been removed from these statements.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Measurement Focus and Basis of Accounting (Continued)

a. Government-wide Financial Statements (Continued)

Governmental activities, which normally are supported by special assessments and interest, are reported separately from business-type activities. Program revenues include charges for services, and payments made by parties outside of the reporting government's citizenry if that money is restricted to a particular program. Program revenues are netted with program expenses in the statement of activities to present the net cost of each program.

Amounts paid to acquire capital assets are capitalized as assets, rather than reported as an expenditure. Proceeds of long-term debt are recorded as liabilities in the government-wide financial statements, rather than as an other financing source.

Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability, rather than as an expenditure.

b. Fund Financial Statements

The underlying accounting system of the District is organized and operated on the basis of separate funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Fund financial statements for the primary government's governmental funds are presented after the government-wide financial statements. These statements display information about major funds individually.

Governmental Funds

The District classifies fund balance according to Governmental Accounting Standards Board Statement 54 – Fund Balance Reporting and Governmental Fund Type Definitions. The Statement requires the fund balance for governmental funds to be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Measurement Focus and Basis of Accounting (Continued)

b. Fund Financial Statements (Continued)

Governmental Funds (Continued)

The District has various policies governing the fund balance classifications.

Nonspendable Fund Balance – This classification consists of amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact.

Restricted Fund Balance – This classification includes amounts that can be spent only for specific purposes stipulated by constitution, external resource providers, or through enabling legislation.

Assigned Fund Balance – This classification consists of the Board of Supervisors' intent for funds to be used for specific purposes, but are neither restricted nor committed. The assigned fund balances can also be assigned by the District's management company.

Unassigned Fund Balance – This classification is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications. Unassigned fund balance is considered to be utilized first when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Fund Balance Spending Hierarchy – For all governmental funds except special revenue funds, when restricted, committed, assigned, and unassigned fund balances are combined in a fund, qualified expenditures are paid first from restricted or committed fund balance, as appropriate, then assigned and finally unassigned fund balances.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are considered to be available when they are collected within the current period, or soon thereafter, to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Measurement Focus and Basis of Accounting (Continued)

b. Fund Financial Statements (Continued)

Governmental Funds (Continued)

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Interest associated with the current fiscal period is considered to be an accrual item and so has been recognized as revenue of the current fiscal period.

Under the current financial resources measurement focus, only current assets and current liabilities are generally included on the balance sheet. The reported fund balance is considered to be a measure of “available spendable resources”. Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of “available spendable resources” during a period.

Because of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

Amounts expended to acquire capital assets are recorded as expenditures in the year that resources were expended, rather than as fund assets. The proceeds of long-term debt are recorded as an other financing source rather than as a fund liability.

Debt service expenditures are recorded only when payment is due.

**Harmony Community Development District
NOTES TO FINANCIAL STATEMENTS
September 30, 2024**

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3. Basis of Presentation

a. Governmental Major Funds

General Fund – The General Fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Debt Service Fund 2014 – Accounts for the debt service requirements to retire certain capital improvement revenue bonds, which were used to finance the construction of District infrastructure improvements and finance certain additional improvements.

Debt Service Fund 2015 – Accounts for the debt service requirements to retire certain capital improvement revenues bonds, which were used to finance the construction of District infrastructure improvements and finance certain additional improvements.

b. Non-current Governmental Assets/Liabilities

GASB Statement 34 requires that non-current governmental assets, such as land and buildings, and non-current governmental liabilities, such as special assessment bonds, be reported in the governmental activities column in the government-wide statement of net position.

4. Assets, Deferred Outflows of Resources, Liabilities and Net Position or Equity

a. Cash and Investments

Florida Statutes require state and local governmental units to deposit monies with financial institutions classified as "Qualified Public Depositories," a multiple financial institution pool whereby groups of securities pledged by the various financial institutions provide common collateral from their deposits of public funds. This pool is provided as additional insurance to the federal depository insurance and allows for additional assessments against the member institutions, providing full insurance for public deposits.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4. Assets, Deferred Outflows of Resources, Liabilities and Net Position or Equity (Continued)

a. Cash and Investments (Continued)

The District is authorized to invest in those financial instruments as established by Section 218.415, Florida Statutes. The authorized investments consist of:

1. Direct obligations of the United States Treasury;
2. The Local Government Surplus Funds Trust or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperative Act of 1969;
3. Interest-bearing time deposits or savings accounts in authorized qualified public depositories;
4. Securities and Exchange Commission, registered money market funds with the highest credit quality rating from a nationally recognized rating agency.

Cash equivalents include time deposits and certificates of deposit with original maturities of three months or less and held in a qualified public depository as defined by Section 280.02, Florida Statutes.

b. Restricted Net Position

Certain net position of the District are classified as restricted assets on the statement of net position because their use is limited either by law through constitutional provisions or enabling legislation; or by restrictions imposed externally by creditors. In a fund with both restricted and unrestricted assets, qualified expenses are considered to be paid first from restricted net position and then from unrestricted net position.

c. Capital Assets

Capital assets, which include land and improvements, infrastructure, improvements other than buildings, recreational facilities, and equipment, are reported in the applicable governmental activities column.

The District defines capital assets as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of two years. The valuation basis for all assets is historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its useful life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4. Assets, Deferred Outflows of Resources, Liabilities and Net Position or Equity (Continued)

c. Capital Assets (Continued)

Depreciation of capital assets is computed and recorded by utilizing the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows:

Infrastructure	10-30 years
Improvements other than building	10-20 years
Recreational facilities	15-30 years
Equipment	5-20 years

d. Deferred Outflows of Resources

Deferred outflow of resources is the consumption of net position by the government that is applicable to a future reporting period. Deferred amount on refunding is amortized and recognized as a component of interest expense over the life of the bond.

e. Unamortized Bond Discounts/Premiums

Bond discounts/premiums are presented on the government-wide financial statements. The costs are amortized over the life of the bonds using the straight-line method. For financial reporting, the unamortized bond discounts/premiums are netted against the applicable long-term debt.

f. Budgets

Budgets are prepared and adopted after public hearings for the governmental funds, pursuant to Chapter 190, Florida Statutes. The District utilizes the same basis of accounting for budgets as it does for revenues and expenditures in its various funds. The legal level of budgetary control is at the fund level. All budgeted appropriations lapse at year end. Formal budgets are adopted for the general and debt service funds. As a result, deficits in the budget variance columns of the accompanying financial statements may occur.

NOTE B – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. Explanation of Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

“Total fund balances” of the District’s governmental funds, \$3,437,483, differs from “net position” of governmental activities, \$2,232,959, reported in the Statement of Net Position. This difference primarily results from the long-term economic focus of the Statement of Net Position versus the current financial resources focus of the governmental fund balances. The effect of the differences is illustrated below.

Capital related items

When capital assets (land, buildings, improvements, infrastructure, and equipment that are to be used in governmental activities) are purchased or constructed, the cost of those assets is reported as expenditures in governmental funds. However, the Statement of Net position included those capital assets among the assets of the District as a whole.

Land and improvements	\$ 8,991,508
Infrastructure	5,203,677
Improvements other than buildings	57,442
Recreational facilities	3,777,032
Equipment	305,167
Less: accumulated depreciation	<u>(7,472,732)</u>
Total	<u>\$ 10,862,094</u>

Deferred outflows of resources

Deferred outflows of resources applicable to the District’s governmental activities are not financial resources and therefore, are not reported at the fund level:

Deferred amount on refunding, net	<u>\$ 279,026</u>
-----------------------------------	-------------------

Long-term debt transactions

Long-term liabilities applicable to the District’s governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities (both current and long-term) are reported in the Statement of Net Position. Balances at September 30, 2024 were:

Bonds payable	\$ (11,965,000)
Bond premium, net	(201,885)
Bond discount, net	<u>79,332</u>

NOTE B – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (CONTINUED)

1. Explanation of Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position (Continued)

Accrued interest

Accrued liabilities in the statement of net position differ from the amount reported in governmental funds due to accrued interest on bonds.

Accrued interest on bonds payable	\$ <u>(258,091)</u>
-----------------------------------	---------------------

2. Explanation of Differences Between the Governmental Fund Operating Statements and the Statement of Activities

The “net change in fund balances” for government funds, \$531,486, differs from the “change in net position” for governmental activities, \$2,035,314, reported in the Statement of Activities. The differences arise primarily from the long-term economic focus of the Statement of Activities versus the current financial resources focus of the governmental funds. The effect of the differences is illustrated as follows.

Capital related items

When capital assets that are to be used in governmental activities are purchased or constructed, the resources expended for those assets are reported as expenditures at the fund level. However, in the Statement of Activities, the costs of those assets is allocated over their estimated useful lives and reported as depreciation expense. As a result, fund balances decrease by the amount of financial resources expended, whereas net position decrease by the amount of depreciation charged for the year.

NOTE B – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (CONTINUED)

2. Explanation of Differences Between the Governmental Fund Operating Statements and the Statement of Activities (Continued)

Long-term debt transactions

Repayments of bond principal are reported as an expenditure at the fund level and, thus, have the effect of reducing fund balance because current financial resources have been used. At the government wide level, these payments are reflected as a reduction of bonds payable.

Debt principal payments	\$ 1,670,473
Bond premium amortization	17,429
Bond discount amortization	<u>(9,917)</u>
Total	<u><u>\$ 1,677,985</u></u>

Some expenses reported in the Statement of Activities do not require the use of current financial resources, therefore, are not reported as expenditures at the fund level.

Net decrease in accrued interest payable	\$ 29,456
Decrease in deferred amount on refunding	<u>(31,658)</u>
Total	<u><u>\$ (2,202)</u></u>

NOTE C – CASH AND INVESTMENTS

All deposits are held in qualified public depositories and are included on the accompanying balance sheet as cash and investments.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a formal deposit policy for custodial credit risk; however, they follow the provisions of Chapter 280, Florida Statutes regarding deposits and investments. As of September 30, 2024, the District's bank balance was \$1,451,786 and the carrying value was \$1,449,101. Exposure to custodial credit risk was as follows. The District maintains all deposits in a qualified public depository in accordance with the provisions of Chapter 280, Florida Statutes, which means that all deposits are fully insured by Federal Depositors Insurance or collateralized under Chapter 280, Florida Statutes.

Investments

As of September 30, 2024, the District had the following investments and maturities:

Investment	Maturity	Fair Value
U.S. Bank Money Market	N/A	<u>\$ 2,086,656</u>

The District categorizes its fair value measurements within the fair value hierarchy recently established by generally accepted accounting principles. The fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The District uses a market approach in measuring fair value that uses prices and other relevant information generated by market transactions involving identical or similar assets, liabilities, or groups of assets and liabilities.

Assets or liabilities are classified into one of three levels. Level 1 is the most reliable and is based on quoted price for identical assets, or liabilities, in an active market. Level 2 uses significant other observable inputs when obtaining quoted prices for identical or similar assets, or liabilities, in markets that are not active. Level 3 is the least reliable and uses significant unobservable inputs that use the best information available under the circumstances, which includes the District's own data in measuring unobservable inputs.

Based on the criteria in the preceding paragraph, the investment listed above is a Level 1 asset.

Interest Rate Risk

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Harmony Community Development District
NOTES TO FINANCIAL STATEMENTS
September 30, 2024

NOTE C – CASH AND INVESTMENTS (CONTINUED)

Credit Risk

The District's investments are limited by state statutory requirements and bond compliance. The District has no investment policy that would further limit its investment choices. As of September 30, 2024, the District's investment in U.S Bank Money Market was not rated by Standard & Poor's.

Concentration of Credit Risk

The District places no limit on the amount it may invest in any one fund. The investments in U.S. Bank Money Market are 100% of the District's total investments.

The types of deposits and investments and their level of risk exposure as of September 30, 2024 were typical of these items during the fiscal year then ended. The District considers any decline in fair value for certain investments to be temporary.

NOTE D – SPECIAL ASSESSMENT REVENUES

Special assessment revenues recognized for the 2023-2024 fiscal year were levied in August 2023. All levies are due and payable on November 1 or as soon as the assessment roll is certified and delivered to the Tax Collector. Per Section 197.162, Florida Statutes discounts are allowed for early payment at the rate of 4% in November, 3% in December, 2% in January, and 1% in February. Amounts paid in March are without discount.

All unpaid assessments become delinquent as of April 1. Virtually all unpaid assessments are collected via the sale of tax certificates on, or prior to, June 1; therefore, there were no material amounts receivable at fiscal year end.

NOTE E – INTERFUND BALANCES

Interfund balances at September 30, 2024, consisted of the following:

	<u>Payable Fund</u>
<u>Receivable Fund</u>	General Fund
Debt Service 2014	\$ 22,324
Debt Service 2015	13,424
Total	<u><u>\$ 35,748</u></u>

Interfund balances are due to receipts collected by one fund on behalf of another fund that were not repaid as of year-end.

Summary of Significant Bonds Resolution Terms and Covenants

The District levies special assessments pursuant to Chapter 170, Chapter 197 and Section 190.022, Florida Statutes and the assessment rolls are approved by resolutions of the District Board. The collections are to be strictly accounted for and applied to the debt service of the bond series for which they were levied. The District covenants to levy special assessments in annual amounts adequate to provide for payment of principal and interest on the bonds. However, payment of principal and interest is dependent on the money available in the debt service fund and the District's ability to collect special assessments levied.

The bonds are subject to extraordinary mandatory redemption prior to maturity, in whole on any date, or in part on an interest payment date, without premium, together with accrued interest to the redemption date if monies are available to retire the debt in accordance with the provisions of the indenture.

The bond resolution and the trust indenture provide for the establishment of certain accounts and an order in which revenues are to be deposited into these accounts. The accounts include a construction, revenue, redemption, reserve, interest and prepayment account and are maintained by a trustee.

The bond indenture provides for Debt Service Reserve Funds, which shall be held by the Trustee separate and apart from all other funds. The following is a schedule of reserve requirements and balances in the reserve accounts at September 30, 2024:

<u>Capital Improvement Revenue Refunding Bonds</u>	<u>Reserve Balance</u>	<u>Reserve Requirement</u>
Series 2014	\$ 607,313	\$ 607,313
Series 2015	\$ 340,000	\$ 340,000

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Supervisors
Harmony Community Development District
Osceola County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements, as listed in the table of contents, of Harmony Community Development District, as of and for the year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise the basic financial statements and have issued our report thereon dated March 28, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit, we considered Harmony Community Development District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Harmony Community Development District's internal control. Accordingly, we do not express an opinion on the effectiveness of Harmony Community Development District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Harmony Community Development District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

WORK ORDERS, INSPECTIONS, & PREVENTATIVE MAINTENANCE SOFTWARE

Included in Vesta's Proposed Management Fee

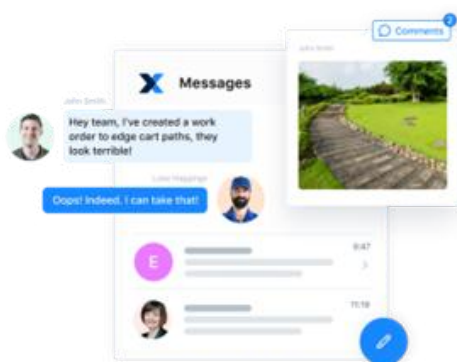

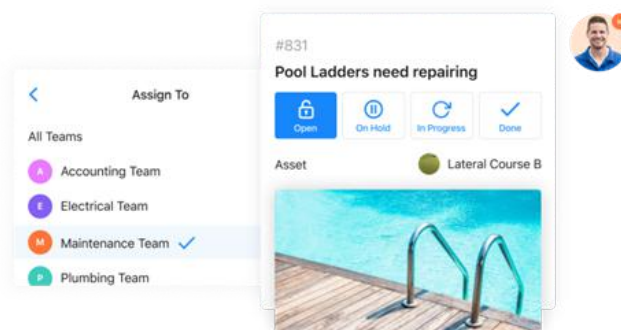

Schedule Inspections

Never worry about an inspection falling through the cracks. We set due dates and repeatability settings and get alerts when inspections are past due. We all ensure everyone is using the most up-to-date inspections and performing work accurately.

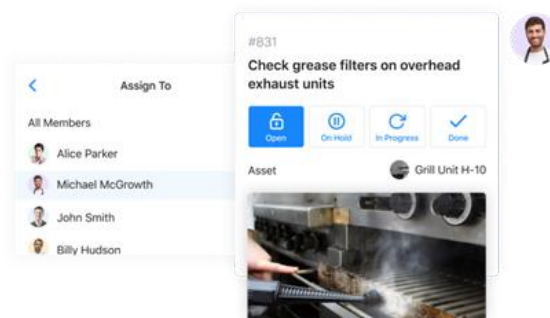

Work Orders

Know what's working and what isn't, and who is fixing what, when. We assign Work Orders to our Team (or vendors) to fulfill maintenance requests related to community assets, infrastructure, and equipment. (Allows tasks to be scheduled with staff as well as vendors.)

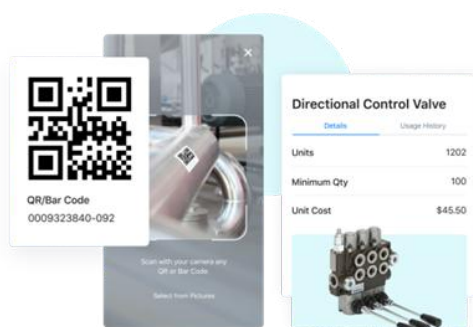

Collaborate

Maintain Quality Control

Reduce downtime and ensure that your equipment runs safely and efficiently to meet or surpass standards.

QR and Barcode Scanning

Manage parts, inventory, and assets with barcode scanning. This allows management to pull warranties, invoices, and work orders on one specific item. For example, a QR Code would be added to a pool heater. Maintenance tech/vendor would be able to add a warranty, work order details, etc. In the field.

Vesta's Approach to Vendor Management

Communication centered on establishing clear expectations for all parties along with timely and accurate feedback enables appropriate accountability with our vendors, which results in better results for our clientele. Vesta has developed tools such as our "Landscape Accountability Tool" that aligns a vendor's contract with efficient evaluation criteria, to best-ensure timely, specific, and measurable feedback and the highest levels of service. We have also worked to create more competition in the marketplace by using our performance management system to draw in new vendors as needed.

- *List any and all litigation to which the Proposer or its principals have been a party in the last five (5) years. Please describe the nature of the litigation, the Proposer's role in the litigation, and the status and/or resolution of the litigation.*
- **At our "Five Towns" managed community in the St. Petersburg area, a resident alleged a type of "slip-and-fall," supposedly resulting from an insect sting occurring on the club premises/facilities that we maintain. The claim was dismissed.**
- **A former employee at our Kings Point Sun City Center property alleged wrongful termination in lieu of receiving severance pay (contrary to our standard employment practice.) The claim was dismissed.**
- **In February of 2019, a "Dram Shop" liability matter was settled by our insurance carrier involving a homicide of a resident by a fellow resident in a managed community of Vesta's in the Tampa area, The Bay Club at Westshore Yacht Club.**
- **A former Vesta employee alleged age-discrimination as the reason for his or her termination at our Villages of Bloomingdale contact in Riverview. The claim was settled (for a modest sum) out of court on May 21, 2021.**

- Referencing a specific community(s), what Best Practices are now being implemented due to the suggestion of your company?
 - **We pride ourselves on our industry-leading best practices and standards. At multiple communities including Beach CDD/Tamaya, and Grand Haven, we have implemented QR code surveys, so residents can instantly report concerns, provide feedback, or contact members of management directly to give feedback on their experience in the community. These surveys give real-time information that we as a management company can respond to and act on where permitted by statute. Another best practice we've implemented with all of our District Management clients is a process in which we route incoming communications from residents through an online portal. This allows the communication to be tracked by all appropriate members of management and appropriate vendors, as well as enables the requests to be tracked, ensuring they are followed up on and not left without response or resolution.**
- Referencing a specific community(s), what changes have you suggested to Boards to improve the efficiency of their meetings?
 - **At all of our District Management client communities but specifically using Avalon Groves and Epperson North CDDs as examples, we implemented standard best practices for meeting efficiency. This includes close partnership with the Chair in setting the agenda, then having a call with key district staff to ensure efficiency and productivity in the meeting. Once in the meeting itself, boards are encouraged to adopt strict rules of procedure for meeting governance, allowing the public to speak when appropriate, but allowing the District Manager and Chair the ability to moderate discussion outside of public comment periods. Further, electronic editions of the agenda packet are furnished to board supervisors well in advance of the meeting, as well as on tablets in the meeting itself to allow for easy navigation between agenda items. An action item summary is kept by the District Manager and communicated to all relevant parties following the meeting to ensure tasks are appropriately distributed and completed.**

- Referencing a specific community(s), how have you guided Boards on how to address speeding and parking challenges?
 - **At Bridgewater of Wesley Chapel, we have forged a strong and productive relationship with the Sheriff's office. There is an agreement in place that allows the Sheriff's Office to enforce the laws of the county relating to speed and parking. Further, through the creation of a parking policy, the district has partnered with a towing company to appropriately tow vehicles incorrectly parked on district property. Other communities we partner with have entered into license agreements with the HOA that allows the Association to enforce it's parking rules on district property. Regardless of approach, a strong relationship with local law enforcement is tantamount to success in managing traffic or parking related issues.**
- In terms of size and complexity, please identify the community with needs most similar to Harmony to which you are currently providing district management services. Please provide appropriate contact information for every community referenced in your answers.

ABOUT SPECIAL DISTRICT SERVICES

Serving Your Community

At the heart of what sets us apart from other management companies is our attention to the details of your community. The day-to-day management of your district and the oversight of how your community is maintained is important to us. Entrance ways, community landscaping, roadway maintenance, infrastructure improvements and capital improvement recommendations are all important components of our job.

Since opening our doors in 1993, we have grown to manage more than 125 special districts. Our team has expertise in many aspects of community development, whether it's new construction or issues facing an established community. We care about each of the communities we manage and it shows.

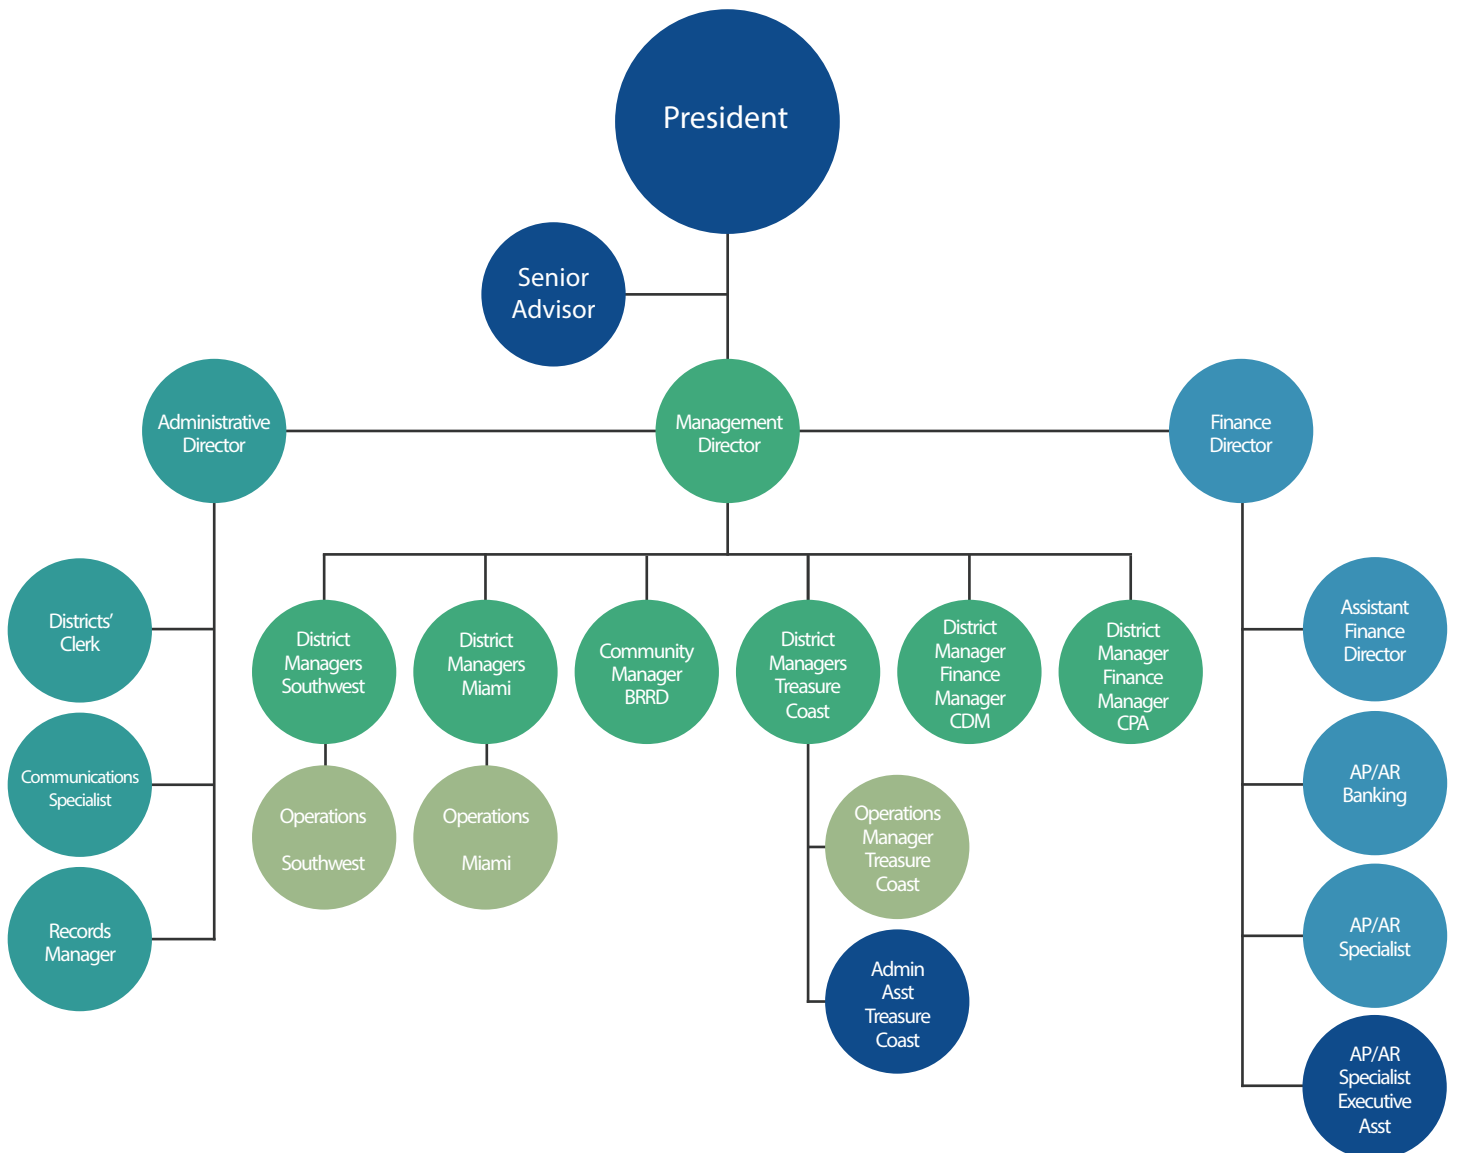

Managing the Needs of Your Special District

Each district is assigned a district manager from SDS. This person is responsible for the day-to-day administrative functions of the district, including preparation for board meetings, record keeping and communication with all entities doing business with the district. In addition, your manager provides support to the Board, informing them of the duties and requirements necessary for compliance with Florida State Statutes. We ensure that there are regular timely and efficient meetings, clear, easy-to-read financial reports and quick solutions to community issues.

6.F.**SUPPLEMENTAL QUESTIONS FOR DISTRICT MANAGEMENT SERVICES**

1. Referencing a specific community(s), what Best Practices are now being implemented due to the suggestion of your company?

At Ave Maria and Tradition, we have implemented Executive Summaries on agenda items that includes a description of the item, financial impact and recommendations of staff. We have also invested in an accounts payable solution called Bill.com that pays your bills faster and more efficiently. Also, as a company we employ a system called the Entrepreneurial Operating System (EOS) that establishes accountability and focuses on our core values, which are:

- a) Work Excellence
- b) Responsiveness
- c) Respect
- d) Get'R Done Attitude

2. Referencing a specific community(s), what changes have you suggested to Boards to improve the efficiency of their meetings?

Here are some suggestions we have in general for more efficient meetings:

- a. Start on time
- b. Set an expectation on length of meeting up front
- c. Keep a time limit on public speakers
- d. Do not allow discussion to turn into a Q&A

3. Referencing a specific community(s), how have you guided Boards on how to address speeding and parking challenges?

Speeding is reliant on communication and cooperation of local law enforcement because no CDD has police powers. As for parking challenges, every community is unique, and it can vary from street to street. At Ave Maria, we held several public hearings and installed no parking signs in the crowded town center. We also have had to monitor and remove large vehicles (18-wheelers) and trailers where people would leave them for extended periods.

4. In terms of size and complexity, please identify the community with needs most similar to Harmony to which you are currently providing district management services.

Avenir Community Development District in Palm Beach Gardens, Florida is most similar to Harmony CDD.

5. Please provide appropriate contact information for every community referenced in your answers.

Ave Maria Stewardship Community District – Jay Roth, Chair 239-293-7555

Avenir Community Development District – Virginia Cepero, Chair 305-447-7494

RE: Harmony CDD - District Management Services

Dear Mr. Eckert,

PFM Group Consulting LLC ("PFM" or "PFMGC") appreciates the opportunity to submit our credentials to provide District Management Services to Harmony Community Development District (the "District").

The PFM Group of companies have roots serving state & local governments that go back over 50 years. PFM's philosophy for providing District Management Services is simple: we're not striving to be the largest — we strive to be the most attentive and responsive partner to each community we serve. We believe that high-quality service comes from focus, not volume. Supported by the strength of a national firm, our District Management Services team is located and managed in Florida. Our decentralized approach allows us to be nimble, responsive, and deeply involved in the communities we serve. When you work with us, you're not passed along through layers of staff or bureaucracy. You're partnering directly with an experienced professional team who is invested in the success of your district.

With a portfolio of nearly 60 special districts across Florida, our team offers a deep understanding of the full district life cycle — from establishment through full buildout. We deliver hands-on, client-focused service backed by unmatched technical and financial expertise. Our proactive approach helps to ensure that everything from field operations to amenity oversight runs smoothly, compliantly, and with transparency.

Furthermore, we don't wait for issues to arise — we anticipate them. We understand the importance of transparency, accuracy, and accountability in managing your district's financials, meetings, and compliance. Our team takes pride in knowing the unique needs of each district we serve. We customize our service — not with a cookie-cutter playbook — but with thoughtful, strategic support that reflects our clients' specific priorities and long-term goals.

Below we summarize the reasons we believe our affiliate, PFM Group Consulting, to be the optimal choice for the District.

District Management Services: Enhanced by our affiliate's acquisition of the majority assets of Fishkind & Associates, Inc., PFM provides our special district clients with what we believe to be highly effective services at every stage of a District's life -- from establishment to full development. We continue to selectively add clients in Florida and other states and have an experienced team of professionals to provide clients with the level of service they expect and deserve.

Our scope of services includes but is not limited to general consultation, orchestrating, and managing meetings, District representation, accounting services, capital budgeting and improvement plan, recording and transcribing meeting minutes, record management, coordination of annual assessments, lien book maintenance and continuing disclosure assistance services.

Staff: Our growing team currently consists of over 22 professional staff members including five experienced District Managers who have over 45 years combined length of service in the industry. Additionally, our team includes Accountants, Assistant District Managers, Administrative Support, and Field Specialist subcontractors to service our districts. As we continue to grow, we continue to assess our team and add additional resources to serve our clients.

Other Services: Our proposal includes services we would be pleased to offer the District under separate agreement with our affiliated companies such as financial advisory services provided by PFM Financial Advisors LLC ("PFMFA"), our registered municipal advisor affiliate.

Cost: Our focus is to provide cost effective services that results in significant value to our clients and our fees reflect the changing needs of the district as it transitions from establishment to development to full build out. Based on our understanding of the District's current needs and stage of development, we would propose the Management Fee as outlined in Tab 7. We hope to build a long, mutually beneficial relationship with the District and as such our fees are fully negotiable to meet the needs of the District.

Independent Ownership / Local Decision Making: PFMGC is a wholly-owned subsidiary of a holding company that is 100% owned by the firm's Managing Directors. As such and unlike some of our competitors, we are not subject to the whims and demands of external investors. Our Managing Directors also set the firm's strategic direction and manage specific practice areas. PFM's District Management Services team is located and managed from our Orlando offices ensuring prompt decision making by local team members.

In closing, we are pleased to open this discussion and look forward to having the opportunity to discuss our proposal to serve as District Manager to Harmony Community Development District. The community can be assured that this engagement is a high priority for us, and we are committed to dedicating the full range of PFM's exceptional services and resources.

We understand the scope of work to be performed and commit to doing so on the District's schedule. We believe PFM's relevant experience and dedicated team, makes us the ideal choice as Harmony Community Development District's District Manager.

Sincerely,

Vivian Carvalho

Special Assessment Districts

Through our PFMGC and PFMFA affiliates, PFM provides district management and/or financial advisory services to more than 75 special districts throughout Florida including Community Development Districts (“CDDs”), Stewardship Districts, Recreational Districts and Improvement Districts. We use a team approach to providing these services, so numerous team members are aware of the needs and desires of each client. Further, our team members are knowledgeable of the requirements and nuances of relevant state statutes and share best practices to address issues facing districts statewide.

District Management Services

PFMGC provides services to a variety of special districts including:

- ◆ Community Development Districts
 - Governed by Florida Statutes Chapter 190 (and Chapter 170)
- ◆ Stewardship Districts
 - Governed by Florida Statutes Chapter 190 and Chapter 298
 - Established & governed by a Special Act passed by the Florida legislature
 - Typically used for large tracts of land with a longer build out period and when there is a desire to preserve large portions of land for conservation, which allow for more thoughtful and coordinated management of the District
- ◆ Recreational Districts
 - Governed by Florida Statutes Chapter 418
 - Recreational Districts are limited in nature to the construction, acquisition, replacement operation and maintenance of recreational amenities
- ◆ Improvement Districts
 - Governed by Florida Statutes Chapter 190 as an alternative method of planning, acquiring, operating and maintaining community-wide improvements

Using dedicated staff with extensive knowledge in the operation of districts, PFMGC provides the following services:

General Management and Administrative Services: PFMGC provides standard administrative services necessary for the proper function of special districts and other projects to help them operate and comply with applicable statutes, laws, codes, rules and regulations, including Florida Statutes Records Requirements of Chapter 119. We attend and help facilitate all scheduled and special meetings, including preparing agendas and minutes for all Board of Supervisors’ meetings, helping to ensure meeting notices are published, and coordinating other logistical matters. Further, we document and update all items for the

“record of proceedings,” solicit proposals for contracts, review and recommend vendors based on proposals received, aid in negotiations, monitor contract status and compliance with contracts and insurance requirements, and notify the Board when contracts are expiring, as well as when to undertake new procurement measures. We help our clients maintain compliance with Florida Administrative Code Section R.1B-24.003(1)(a) concerning the retention of specific District records. Upon request, we provide training for new supervisors and staff.

Accounting Services: Districts are required to prepare financial statements in accordance with governmental Accounting Standards Board (“GASB”) guidelines, and PFMGC is knowledgeable about these standards. For our clients, we prepare monthly financial statements, along with providing accounts payable and receivable work, general account and trust account reconciliations, and completion and filing of State of Florida required annual reports. We present all accounting information to the Board of Supervisors for their review and approval, and our monthly reports include Statement of Financial Position, Statement of Activities, Budget to Actual, and other ad-hoc reports that the Board may request. We work with each district’s selected independent auditor to help ensure they have all necessary information and to implement any recommended measures. During the budgeting process, we prepare draft budgets, incorporate comments from the supervisors, and work with the supervisors to approve the budget. We incorporate the Board’s goals and revenue and expenses from the current year to provide more accurate budget predictions. We can also assist in selecting the public depository bank for the district’s needs and can help open and maintain accounts with the district’s selected bank. The accounting services are paperless, and we use an electronic platform (AvidXchange) for all of our accounts payable. This provides a way for all parties to approve invoices prior to payment and provide for a more transparent process. PFMGC pride ourselves on our strict internal control processes.

Lien Book/Tax Roll Maintenance (Associated with Management of Special Assessments): We work with our clients to provide billing, collection, reporting, and accounting for district assessments. This helps to ensure the district has necessary funds to meet all obligations, from operations to maintenance to any debt obligations. PFMGC administers annual assessments in a timely manner, which helps our clients’ cashflows. We answer questions from property owners regarding their assessments, and when needed, draft estoppel letters and lien releases. Further, where possible, we will recommend ways to leverage efficiencies in collecting revenues. When developer agreements are needed, we can work with the district’s legal counsel to draft and interpret those to help the district’s cashflows.

Technology: To facilitate meetings, we use iPads and other technology which can accommodate virtual participation. Prior to each meeting, we load all agendas, minutes, and other documents onto iPads, which are then disseminated at the meeting. Further, meeting documents are stored electronically and backed up securely, allowing for ease in transmitting and storing documents for future reference. This also provides our clients with cost savings due to a reduction in printing costs and environmental benefits due to reduced paper usage.

Field Management Services: If requested, PFM can also assist with the management and oversight of various District vendors. Such services may be provided by a third-party sub-contractor. Field management services are determined based on the specific needs of each community but generally include the overall supervision of service contractors and maintenance staff, as well as arranging for certain repair and

maintenance work. Upon request, our field service specialist can also be available to attend regularly scheduled Board Meetings.

Regular Inspections. Our team conducts regular inspections of District property, reports any irregularities to the District Manager and/or designated District representative, and facilitates correction of irregularities as needed. Findings of the inspections are detailed in the inspection report provided to the Board.

Repair & Maintenance. Provide routine repair work or normal maintenance as may be required for the operation or physical protection of District property. We can address emergency repairs when necessary for the preservation and safety of persons and/or property and if desired, have an emergency number available for weekend and after-hours emergencies that may arise. The emergency line is setup to dispatch the call according to the parameters set forth by the District. In essence, if the field manager assigned to the District as the first layer of communicating the issue does not answer the call it escalates to the next person in line to assure the matter is being handled and addressed timely.

Oversight of Maintenance Related Vendors:

- Provide work orders generated by the various vendors servicing the District
- Assist District with development of the annual maintenance budget
- Assess and advise the District of any necessary repairs or replacement items that may be required

Capital Program Administration and Bond Issuance: Capital improvements are necessary for the continued success of any district, and PFM has experience with the implementation and funding of capital programs. We coordinate the timing and design of these improvements with the annual budget process, as they can impact proposed operations and maintenance. PFMFA has 50 years of providing financial advisory services, from advising on debt issuance to transaction management to consideration of how-to best structure deals for our clients. Our PFMA colleagues assist with review of the various financing documents and debt structure including the official statement and closing documents, and PFMGC assists with needed disclosures on EMMA. Further, we can recommend providers to help with preparation of all necessary arbitrage calculations.

The District Manager is not a role filled by an individual, rather it is a commitment by a team of motivated and skilled employees. We recognize that our role is more than an individual orchestrating a Board meeting. It is to ensure the District is fully compliant with statutory requirements and managed effectively and efficiently. Given Rizzetta's physical footprint across the state and extensive staffing resources, we are uniquely qualified to respond to the needs of your District.

A third-party vendor performs the ADA mediation of the website. We also host and archive District specific e-mail accounts, if necessary.

Clients choose us because we have the experience to create robust, integrated solutions based on each District's unique needs, budget, and long-term goals.

Extensive Experience

- Rizzetta is the only “**original**” Community Development District Management company continuously providing services to Districts since the first CDD (Tampa Palms) issued bonds in 1986. Today, 39 years later, Bill Rizzetta continues to manage his company on a daily basis. In addition, Rizzetta brings extensive industry knowledge and influence at the legislative level.
- The first District Management company to successfully merge multiple separate CDD's into a unified District.

Result-Driven & Client-Focused

- District Finance team has vast knowledge having been involved in over 250 separate Bond Transactions with total funding exceeding \$3 Billion; served as the Dissemination Agent for over 80 Districts; and prepared over 1,700 Tax Assessment rolls.
- District Accounting staff has been audited over 3,000 times (each District is audited annually) with no findings of internal control issues or fraudulent activity.
- We have established a dual team approach where an assigned Lead District Manager handles daily operations and the 2nd Chair District Manager ensures continuity of service by a qualified District manager when the Lead District Manager is out of the office.
- Client Relations Manager endeavors to relentlessly monitor and enhance our services and exposure to your residents. This aids in pre-empting resident complaints occupying Board proceedings.
- Rizzetta's continuous improvement culture compounded with relentless training of all staff provides for ever increasing levels of service and performance.

Training & Infrastructure

- As part of the transition process, we provide an Onboarding Workshop to go over responsibilities and contracts with Board of Supervisors. We also offer free training sessions to new board members to gain better understanding of how the community should operate.
- Rizzetta made significant investments in its information infrastructure to harden its protection of Public Documents and enhance the electronic communication with Board members. Public documents are now protected with multi-factor authentication, cloud storage, professional patch management and hardware replacement policies.
- Rizzetta introduced “electronic agendas” to Board meetings negating the need to print and bind thousands of pages by providing electronic tablets for Board use during all meetings.

SUPPLEMENTAL QUESTIONS FOR DISTRICT MANAGEMENT SERVICES

1. Referencing a specific community(s), what Best Practices are now being implemented due to the suggestion of your company?

A: We have implemented a quarterly newsletter for several of our communities with high resident engagement to ensure clear and consistent communication. This is complemented by timely project update memos distributed via HOA email blasts. These practices have strengthened overall community culture and increased resident trust in the CDD.

2. Referencing a specific community(s), what changes have you suggested to Boards to improve the efficiency of their meetings?

A: In larger communities (Town of Kindred CDD, Town of Kindred II CDD, Villasol CDD, Heritage Isle at Viera CDD) where multiple projects can compete for attention, we have introduced a project management process to help Boards prioritize effectively. Items are only presented when all proposals have been gathered and the necessary research completed. Additionally, before each meeting, the District Manager works closely with the Board Chair to develop an agenda that streamlines discussions and promotes productive meetings.

3. Referencing a specific community(s), how have you guided Boards on how to address speeding and parking challenges?

A: At Westridge CDD, we worked with the Board to establish clear Parking Rules and Procedures to enhance resident safety. The community consists of three distinct subdivisions, each with unique needs. A no-street-parking policy was adopted, supported by an overflow parking system to accommodate residents during special events. Residents receive parking passes for overflow areas, managed jointly with the HOA. Designated overflow spaces are clearly marked throughout the community. Additionally, we recently completed a project to install 28 speed humps across the CDD to further enhance safety. Please find the attached PDF ("Do's & Don'ts") which provides residents with clear visual guidance on parking rules.

4. In terms of size and complexity, please identify the community with needs most similar to Harmony to which you are currently providing district management services.

A: Attached you will find sample images of trackers used by our field operations team for Town of Kindred CDD, Town of Kindred II CDD, and Villasol CDD. These communities have onsite teams that coordinate daily with our staff to manage operations and projects. We also provide Boards with weekly operational reports to ensure consistent updates and strong communication.

5. Please provide appropriate contact information for every community referenced in your answers.

OUR TEAM

Although technology has tremendously impacted how services are provided for nearly every business today, GMS realizes an organization is only as good as the individuals working within it. If an organization is not able to retain hardworking, knowledgeable and dedicated employees that understand their client's needs, it is most certain to fail. It is for this reason that GMS has focused a significant effort on recruiting and retaining the best in the district management industry

STATEMENT OF STAFF CONSISTENCY

The District Management Team proposed remains the same for the duration of the contracts. Any changes in the District Management Team will be discussed and approved by the Boards of Supervisors. Members of the management team have worked together for years, and there is complete trust and loyalty in their abilities to provide the most efficient, effective and professional management services possible. In addition, these types of long-term personal relationship among GMS staff are reassuring to our clients because personnel turnover in any organization is extremely detrimental to its ability to provide the necessary services.

"GMS realizes an organization is only as good as the individuals working within it."
